ARJUNAN R.

No 17, Mothilal 2nd Street, Arappalayam, Madurai- 625 016, Tamilnadu, India.
+9194430 23808 arjunramesh694@gmail.com Arjunan R
Leet Code: Arjun-2503

Career Objective

To obtain a challenging position as an Embedded Systems Engineer where I can leverage my strong foundation in C programming and ARM7 architecture to design, develop, and optimize embedded applications, while continuously learning new technologies to contribute effectively to organizational growth.

Education

PSNA College of Engineering and Technology, Dindigul **2021 – 2025**
Bachelor of Engineering in Electronics and Communication Engineering *Dindigul, India*

- Class First Class
- CGPA 6.75

CEOA Matric Higher Sec. School, Madurai **2020 – 2021**
Higher Secondary (12th) *Madurai, India*

- Percentage 86.53%

CEOA Matric Higher Sec. School, Madurai **2018 – 2019**
Secondary (10th) *Madurai, India*

- Percentage 81.6%

Projects

Title:
"Underground Cable Fault Detection Using PIC Microcontroller" Description:

- **Developed a system that detects the exact location of faults in underground cables using a PIC microcontroller.**
- **Implemented fault detection based on variations in resistance and voltage levels.**
- **Designed the hardware circuit with fault simulation using switches and resistors.**
- **Programmed the PIC microcontroller to process sensor signals and display fault location on an LCD. • Achieved real-time fault detection and improved fault monitoring efficiency.**

Technical Skills

Embedded Engineer Skill Set

- ***Soft Skills***
  - *Problem-Solving Mindset*
  - *Communication Skills*
  - *Time Management*
  - *Adaptability & Curiosity*
- ***Technical Skills***
  - *Programming Languages*
    - *C – Expert-level: Core language for low-level programming on ARM7 MICROCONTROLLER.*
    - *Assembly (Basic) – Understanding of ARM7TDMI instruction set for precise hardware control.*
    - *Shell Scripting (Basic) – For Linux-based automation and development workflows.*

- *Microcontroller & Architecture*
  - *ARM7 (LPC2129) – In-depth experience with register-level programming, peripherals, and realtime applications.*
  - *Familiar with GPIO, Timers, UART, ADC, PWM on ARM7.*
- *Communication Protocols*
  - *UART, SPI, I2C, CAN – Implemented and debugged for sensor/actuator interfacing and module communication.(Currently Gaining knowledge) – Operating* Systems
  - *Linux (Basic Commands) – Hands-on with file systems, shell, Makefiles, and crosscompiling for embedded targets.*
- *Tools* & Debugging
  - *IDE/Compiler – Keil µVision for ARM7 development*
  - *Simulator – Proteus for virtual testing of microcontroller circuits*
  - *Debugging Tools – Logic analyzers for protocol debugging and signal tracing*
- *Other* Tools & Concepts
  - *Flash Magic – For LPC2129 In-System Programming (ISP)*
  - *Makefiles – For building embedded projects in Linux environment*
  - *Version Control – Familiarity with Git for project collaboration and tracking*

Certifications

- *C Programming*
- *Embedded C for ARM7*

Hobbies

- *Playing Cricket*
- *Travelling.*

Personal profile

• *Father's Name*	*: Mr.K.Ramesh*
• *DOB*	*: 25.03.2004*
• *Languages known*	*: Tamil, English.*
• *Marital status*	*: Single*

Declaration

I, hereby declare that the above information is true to my knowledge. Thanking you,

Place: Madurai *Yours truly,*

Date: *R.ARJUNAN*
