SUMMARY

I am excited to bring my strong technical tool, attention to detail and passion for technology to a forward-thinking company where i can contribute to impactful software solution

TECHNICAL SKILLS

Python	SQL
c	UI/UX desgining
HTML & CSS	flutter and figma

PROJETCS AND ACHIEVEMNTS

E- commerce applications designing using fresh fare

Ui \Ux design Fresh Fare is an intuitive and responsive e-commerce application designed using Figma ,focused on enhancing the online grocery shopping experience. It features a user-friendly interface,brand consistency and advanced shopping unfunctionalities like personalizen recommendations and secure checkout.The design ensures usability and accessibility for allnusers, with interactive improvements based on user feedback

Automatic night lighting system

An automatic USB night lighting circuit can be built using a BD139 transistor, an LDR, or a 3.3k resistor. The circuit is designed to turn on a light automatically when the ambient light level falls below a certain threshold. This can be a useful feature in situations where you need a night light in a dark room

EDUCATION

BACHELOR OF COMPUTER SCIENCE ENGINEERING 2021-2025

Akshaya college of engineering and technology, Kinathukadavu
GCPA - 7.04

HIGHER SECONDARY 2020-2021

Changavi Vidhya Mandir Matric hr.sec school,Pollachi
secured - 75%

ADDITIONAL INFORMATION

- **Languages:** English, Tamil
- **Certifications:**Java programing- Akshaya college of engineering and technology,Css,javascript and PHP for beginners– Udemy
- **Internship:**Web development-Durga tech
