Bengaluru, Karnataka | +91 9940986497 | thirunavukarasuwe@gmail.com | [LinkedIn](#) | [GitHub](#)

Self-motivated web developer with a strong foundation in front-end, back-end, and full-stack development. Passionate about building scalable applications, learning new technologies, and solving complex problems.

WORK EXPERIENCE

ENTRI ELEVATE

February 2024- March 2024

Web Development Intern

- Developed and optimized web applications using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Collaborated with a team to design and implement scalable and user-friendly web solutions.
- Gained hands-on experience in RESTful API development, database management, and front-end UI enhancements.
- Worked in an Agile development environment, improving problem-solving, debugging, and collaboration skills.
- Applied best practices in code optimization, version control (Git), and deployment for seamless project management.

CONNEQT BUSINESS SOLUTION LIMITED

April 2024-February 2025

Chat Process Associate

- Managed customer queries efficiently in a banking chat process, applying logical problem-solving skills for quick resolution.
- Adapted quickly to new tools and workflows, demonstrating the ability to learn and implement new technologies.
- Maintained accuracy and compliance with banking protocols, improving operational efficiency.
- Collaborated with team members and supervisors to enhance workflow processes and service quality.

PROJECTS

Stock Portfolio Tracker -MERN Stack

- Developed a full-stack stock portfolio management system using MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented JWT authentication for secure user login and authorization.
- Integrated real-time stock data APIs to fetch and display live market updates.
- Designed a responsive UI with Bootstrap, enhancing user experience across multiple devices.
- Optimized database queries using Mongoose, improving data retrieval performance and scalability.

Chat Application - MERN + Socket.io

- Built a real-time chat application using the MERN stack, integrating Socket.io for instant messaging.
- Implemented authentication and authorization with JWT for secure access.
- Managed online user status in real time, enhancing user engagement.
- Utilized Zustand for efficient global state management.
- Designed an intuitive UI with TailwindCSS and Daisy UI for a seamless user experience.
- Ensured robust error handling on both the client and server sides for a smooth experience.

TECHNICAL SKILLS

- Front-End:** React.js, HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Daisy UI, Zustand.
- Back-End:** Node.js, Express.js, REST API, JWT Authentication, Socket.io.
- Database:** MongoDB, Mongoose, Basic SQL.
- Version Control:** Git, GitHub.
- Tools & Platforms:** Postman, VS Code.
- Others:** Problem-Solving, Debugging, Agile Methodology.

EDUCATION

Bachelor of Engineering in Electronics & Communication

- Sona College of Technology | 2023 | CGPA: 8.13

CERTIFICATION

MERN Stack Web Development Certification - Entri Elevate:

- Gained hands-on experience in full-stack development using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Built and deployed scalable web applications, implementing RESTful APIs, authentication (JWT), and database management.
- Developed responsive UI/UX using Bootstrap and improving performance, accessibility, and cross-device compatibility.
- Utilized Git and GitHub for version control, following best practices in collaboration, code optimization, and deployment.
