Executive Summary

As a final-year student, I am eager to apply my knowledge of programming and problem-solving to real-world projects. I enjoy learning new technologies, adapting to challenges and working collaboratively. With strong analytical skills, a positive attitude and effective communication, I am excited to gain hands-on experience and grow in software development.

Education

Velalar college of engineering and technology

Erode, Tamil Nadu

B.Tech in Information Technology, final year.

November 2021 - May 2025

CGPA: 7.23

Skills

- | | | |
|-------------------------|-------------------|-----------------------|
| • Programming Languages | • Web Development | • Database Management |
| C | HTML/CSS | SQL |
| Java | JavaScript | MongoDB |

Freelance Projects

Implementing Fingerprint in User Authentication

Jan 2024 – May 2024

- Tools Used: Python, React JS & MongoDB
- Impact Created: Enhanced security by implementing biometric authentication, reducing reliance on traditional passwords. Streamlined the login process, improving user experience and system integrity.

Restaurant Website

March 2023 - April 2023

- Tools Used: Html, CSS & React JS
- Impact Created: Designed and implemented a responsive, user-friendly website with dynamic menu management and reservation features, enhancing customer engagement and operational efficiency.

Contact management using C Programming

June 2022 - June 2023

- Tools Used: C & File Handling
- Impact Created: Developed a lightweight and efficient system for managing contacts, including features for adding, searching, updating, and deleting records. Improved data handling and user accessibility through streamlined file operations.

Achievements

- | | |
|---|------------------------------|
