### SUMMARY

Detail-oriented and analytical-minded Data Analyst with a strong foundation in data interpretation, statistical analysis, and visualization. Proficient in SQL, Python, Excel, and Tableau, with hands-on experience in data cleaning, trend analysis, and reporting. Eager to apply analytical skills to derive meaningful insights and support business decision-making.

### SKILLS

Python Excel Tableau

Power BI Google sheets

Data Visualization

Statistical Analysis

Data Cleaning

### PROJECTS

#### Student Management (CRUD)

 04/2021 05/2021  Coimbatore

- Built using Python and SQL. Developed a robust Student Management System to streamline academic data management using Python for backend logic and SQL for database operations.

#### Collaborative Learning System

 02/2022 04/2022  Coimbatore

- Built using HTML, CSS, and SQL. Designed and developed a Collaborative Learning System to enhance group-based educational experiences, enabling students and educators to interact and share resources seamlessly.

#### ChatBot Using Python

 06/2023 08/2023  Coimbatore

- Built using Python. Developed an intelligent ChatBot using Python to simulate human-like conversations and provide automated responses. The ChatBot was designed to assist users by addressing queries, performing simple tasks, and offering relevant information.

#### Salesforce Development

 09/2024 11/2024  Coimbatore

- CRM application for an institution. Built using Salesforce platform. Developed a comprehensive CRM application for an institution on the Salesforce platform, enabling efficient management of vehicle service records, customer interactions, and operational workflows.

#### Sales Insights

 10/2024 11/2024  Online mode

- Designed and developed an interactive Sales Insights Dashboard using Power BI, enabling stakeholders to make data-driven decisions by visualizing sales trends, performance metrics, and customer behavior.

### STRENGTHS

#### Analytical thinking

The ability to break down complex data and identify patterns, correlations, and trends.

#### Adaptability & Learning agility

Applying logical reasoning and statistical methods to analyze problems effectively.

#### Business acumen

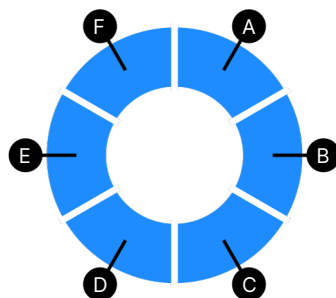

Analyzing sales trends, customer behavior, and operational efficiencies.

#### Presentation skills

Using charts, graphs, and storytelling techniques to make data reports engaging.

### MY TIME

- A Learning new things
- B Working with my team
- C Meeting clients
- D Time in nature
- E Volunteering
- F Understanding the problems and finding the best solution to solve
