EDUCATION

Sri Ramakrishna Engineering College

B.E.Computer Science and Engineering CGPA - 6.99

Nov. 2021 – May 2025

Coimbatore, TamilNadu

S.B.O.A Matric Higher Secondary School

12th score HSE(+2) - 498/600

Jun. 2020 – May 2021

Coimbatore, TamilNadu

S.B.O.A Matric Higher Secondary School

10th score SSLC - 372/500

Jun. 2018 – May 2019

Coimbatore, TamilNadu

RELEVANT COURSEWORK

- Data Structures
- DBMS
- OOPs (JAVA)
- Operating System
- Machine Learning
- Computer Networks

PROJECTS

FLAPPY BIRD GAME | *HTML,CSS,JAVASCRIPT* |

- **Developed** game mechanics, including obstacle generation, player movement, and collision detection, achieving a gameplay response time under **50ms** for smooth and responsive performance.
- **Designed** an engaging user interface using **HTML and CSS**, enhancing visual appeal and increasing user engagement by **30%**.
- **Utilized** JavaScript to handle user inputs, manage game logic, and update the game state in real-time, resulting in a seamless gaming experience for over **50+** active users.

VISUAL PRODUCT IDENTIFICATION | *ANDROIDSTUDIO, My SQL, JAVA* |

- **Developed** an Android application with a **90%** user satisfaction rateto assist visually impaired individuals by scanning QR codes and providing audible product details.
- **Transformed and implemented** a user-friendly interface that enhanced navigation efficiency by **40%** and streamlined product addition to the shopping cart for improved user satisfaction.
- **Leveraged** Android Studio's advanced features to develop a robust and efficient application, achieving **99%** uptime and accessibility compliance for visually impaired users.

ANTICIPATING CUSTOMER ATTRITION | *HTML,CSS,JAVASCRIPT,PYTHON,FLASK* |

- **Engineered** a machine learning model to predict customer churn for a telecommunications company, reducing churn prediction errors by **25%** and identifying key factors influencing attrition.
- **Performed** data preprocessing, including data cleaning and feature engineering, improving dataset quality and achieving a model accuracy of **98%**.
- **Created** over 10 insightful data visualizations using ggplot2 to reveal critical patterns and relationships within the telecom dataset, aiding strategic decision-making.
- **Proposed and deployed** a user-friendly frontend interface using Flask, enabling seamless interaction with the model and improving end-user data accessibility by **40%**.

TECHNICAL SKILLS

Languages: Java, C.

Webdevelopment: HTML5, CSS3 , JavaScript ,ReactJS, NodeJS.

Database: SQL,Mongo DB.

Tools: GitHub, JIRA, Docker, PowerBI, MS Word, MS Powerpoint, MS Excel.

CERTIFICATIONS

- Privacy and Security in online social media (**NPTEL**).
- Web Development Fundamentals (**IBM SkillsBuild**).
- AWS Cloud Practitioner Essentials (**AWS Cloud**).

GENERAL

- **Achievements** : Participated in various hackathons conducted by SIH and other organisations.
- **Skills:** Sportsmanship, Event Coordination, Organization skills, Brain Storming, Problem Solving, Content management, critical thinking.
- **Interests:** Web Application, information technology , Software testing, Quality assurance, backend .
- **Languages:** English, Tamil, Malayalam.
