SUMMARY

To secure a challenging position as a software developer where I can utilize my skills in coding, problem-solving, and teamwork to contribute effectively to innovative projects while continuously enhancing my knowledge and expertise in the field.

EDUCATION

Sri Krishna Adithya College of Arts and Science

Bachelor's Degree in Computer Technology
2018 – 2021 with 74% CGPA.

R.K.Sree Rangammal Kalvi Nilayam

Higher Scondary School - 2018
Mathamatics with computer- 76 %

C.B.M High School SSLC - 2016 with 85%

SKILLS

- Strong organizational and time-management skills
- Exceptional communication and interpersonal skills
- Ability to work independently and as part of a team
- Detail-oriented and able to handle multiple tasks simultaneously
- Frontend Technologies
HTML5,CSS3,JAVASCRIPT
- Backend technologies - **Core Java ,Oops, Servlet,Jsp, Spring ,SpringBoot.** Postman tool.
- Databse - **Mysql,H2**
- Server -Apache Tomcat Servlet
- Git and GitHub

CERTIFICATIONS

Java Full Stack Development

@ **Indra Institue of Education July(2023).**

Sucessfully completed comprehensive Java Full Stack course,earning certification in java programming and related .

Associate Software Developer -Intern

@ Assistanz Network Solution Pvt Ltd.
(March-sept) - 2024.

PROFESSIONAL EXPERIENCE

@IIE- Java Full Stack Certification

Sucessfully completed comprehensive Java Full Stack course,earningcertification in java programming and related technologies and validated by intership certificate.

Associate Software Developer -Intern

@AssistanZ Networks Pvt Ltd | March-Sept 2024

I have around seven months of internship experience as Java developer at Assistanz Network pvt ltd, during my training i have worked on **Java and SQL Queries** and also have a hands on experience in performing **CRUD Operation with JDBC connectivity** Further more i possess good knowledge in **core java concepts** such as string array,ooops, collections ,exception handling and multithread. and learned **advance concepts** of java like **servlet,spring ,spring boot. Spring Security.**

PROJECTS

EMPLOYEE MANAGE SYSTEM It is a simple management tool using java that helps to add employees, view employee details, and remove employees from the system.

LIBRARY MANAGEMENT SYSTEM -Here we are supposed to design and implement a simple library management system using a switch statement in Java, where have operated the following operations Add a new book, Check Out a book, display specific book status, search specific book, and display book details using different classes.

Spring Boot JWT Authentication System - Description:

Developed a secure role-based authentication system using Spring Boot, implementing JWT for token-based session management and role-based access control for Admin, Trainee, and Attendee roles.

Key Features:

- JWT Authentication: Enabled secure API access using JWT.
- Role-Based Access: Designed privileges for Admin (user creation), Trainee (add categories/topics), and Attendee (view topics).
- Custom Security Filter: Developed a JwtRequestFilter for request interception and token validation.
- User Management: Implemented user registration and login with password encryption.
- Database Management: Utilized JPA/Hibernate with MySQL/PostgreSQL.
- RESTful APIs: Created secure endpoints for user and resource management.

Technologies:

- Languages: Java
- Frameworks: Spring Boot, Spring Security
- Database: MySQL/PostgreSQL
- Tools: JWT, Postman, Git
