SUMMARY

Motivated and ambitious graduate in Artificial Intelligence and Machine Learning with hands-on experience in data analytics and machine learning tools. Seeking to further enhance my skills and apply my skills through internship, with a long-term goal of contributing to innovative technological solutions.

EDUCATION

UNDERGRADUATE

2022 - 2025

- Programme : B.Sc Artificial Intelligence and Machine Learning
- Percentage : 75.8

SCHOOLING

2021 - 2022

Grade 12

- Group : Major in Computer Science
- First Class

INTERNSHIP

Internship at Tata Advanced Systems Limited (TASL) in Hyderabad of Duration of one month. It is an Aerospace and Defence based company. Manufactures the materials which are required for the purpose of defence. It is the First company to make the Aircraft in India.

EXTRA - CURRICULAR ACTIVITIES

Paper Presentation

- Paper presentation on Emerging Trends - Artificial Intelligence : Presented about the definition of AI and its types, advantages, applications, Machine learning and popular algorithms and future scope.

Poster Presentation

- Poster presentation on Neural Networks : Topics that contain the definition of Neural Network and its types, Applications with detailed diagrammatic representation.

Toyathon

- Participation in binary expo, It is a group participation of five. Made a model that teaches the programming language concepts in a fun and playful manner to grasp the concepts in a smarter way.

Dexia

- **Syntax Scrambles** : Solved an scrambled program (eg: An if - else program structure given as else as first condition and if as second condition). Re-arranged in a right manner as if statement as first condition and else as second condition
-

TECHNICAL SKILLS

- Python
 - R
 - MS - Excel
 - Power bi
 - Tableau
 - Natural Lanuage Processing - Machine Learning Algorithm
-

SOFT SKILLS

- Communication
 - Team Co - ordination
 - Problem Solving
-

CERTIFICATIONS

- Coursera - Introduction to Machine Learning.
 - Great Learning - HTML, Javascript.
 - Spoken tutorial - C, C++, Java, RDBMS.
 - Oracle - Java SE11 Certification, Machine Learning.
 - Mycaptain - Android App Development, Ethical Hacking, Artificial Intelligence.
 - MS Office and AI hacks certification in Skill Nation.
-

PROJECT

- **AI Chatbot** : Chatbot that answers to queries that are related to education that helps students in clearing doubts. Developed using Django framework, Natural Language Processing Algorithm and additional feature as voice output made using pyttsx3 library.
- **Cloud Storage System** : It stores all kind of document and ability to modify, rename the files. It enures security.
