✉ mspk0101@gmail.com ☎ 8667465359 📍 Coimbatore, India

Profile

Enthusiastic Engineering student with a passion for **problem-solving and software engineering**. Known for **adaptability, a results-driven mindset, and teamwork**. Successfully balances **academics and sports**, showcasing **discipline and a well-rounded skill set**.

Skills

Languages: Java | HTML | CSS

Tools: Powerbi

Database: SQL

Education

B.tech, Kumaraguru College of Engineering 2021 – 2025
CGPA(6.6) Coimbatore, India

12th, Veveaham Hr. Sec. School 2019 – 2021
HSC(88%) Dharapuram, India

10th, Veveaham Hr. Sec. School 2018 – 2019
SSLC(90%) Dharapuram, india

Projects

App for Asset Management, Developed and implemented an innovative app for asset management that manages public assets like schools and colleges. Collaborated with 5 team members and led the project for 2 months until its successful completion.

Cricket Data Analytic Project, The Cricket Analytics Project leverages Python for data processing and statistical analysis, paired with Power BI to create interactive dashboards. It provides in-depth insights into player performance, team strategies, and match trends.

Achievements: Improved decision-making efficiency by 30% for analysts through real-time visualizations and predictive analytics features.

AQUAVUE, Designed and implemented AQUAVUE, an advanced water quality monitoring system for real-time tracking of TDS and pH in aquaculture ponds. Utilizing high-precision sensors and a Raspberry Pi-based web server, AQUAVUE enabled remote monitoring and data visualization, significantly improving water quality management efficiency. Achievements: Reduced manual data collection by 70% and provided actionable insights for water treatment, leading to a 15% decrease in fish mortality.

Certificates

Core Java - — Code Infinite Software Solutions • **AWS Academy Cloud Foundations** — Jan 2024 - Issued by Amazon web Services • **AI and Big data in IOT** — Mar 2024 - Issued by Great Learning
