

PAUL SAM DANIEL.B

Full stack Python Developer

+91 6385932589 | Email: paulsamdaniel18@gmail.com

PROFILE SUMMARY

Full Stack Developer | Software Engineer

- Innovative and results-driven Full Stack Developer designing, developing, and implementing scalable web applications. Proficient in front-end and back-end technologies, including JavaScript, React, Angular, Node.js, Python, and databases like MongoDB and SQL. Adept at building efficient, secure, and user-centric solutions while following best practices in software development and DevOps.
- Passionate about problem-solving, performance optimization, and delivering high-quality code. Experienced in Agile methodologies, cloud services (AWS/Azure), and CI/CD pipelines. Eager to contribute expertise in a dynamic and collaborative team environment.

SKILLS

Programming:

Python, JavaScript, HTML, CSS, Bootstrap, SQL, React JS, AngularJS, J Query, Node, Type script, PHP, MongoDB,

Others: Testing, Visual Studio Code, AWS, Git & GitHub

PROJECTS

College Office Management System | PHP, Android studio, My SQL

- **Description:** The objective of the project is to link college faculty, student and parent in to a single platform. The webpage is designed for college admin to maintain the details such as manage students as per the class, student attendance, class timetable, event, holiday, conduct quiz and maintaining e-book / notes for learning. The faculty in-charge can login in to the webpage to maintain the student record as per the class and The student / parent can make use of the Android application to login into their account to view all intimation in smart manner.
- **Technologies used:** PHP, Andoid Studio3.3, MySQL
- **Features:**
 - The details can maintain in secure manner.
 - The college management or staff members can interact directly to the parent.
 - The system provides a centralized, online platform for maintaining all college-related records,

Online Examination System | C#, SQL Server2008

- **Description:** An Online Exam Management System is a software solution designed to conduct, manage, and evaluate exams digitally. It provides a secure and efficient platform for creating, scheduling, and administering exams while automating the assessment process.
- **Technologies used:** C#, SQL Server2008
- **Features:**
 - Enables educators to design exams with multiple question formats.
 - Auto-grades objective questions and generates performance reports.
 - Allows students to access exams and results, while admins manage users and settings.

Restaurant Management System | PHP, MySQL

- **Description:** A Restaurant Management System is a software solution designed to streamline and automate restaurant operations, improving efficiency and customer experience. It typically includes features like order management, table reservations, inventory tracking, billing, staff management, and reporting.

- **Technologies used:** PHP, MySQL
- **Features:**
 - Automated order processing, reducing manual errors and improving service speed.
 - Optimized table reservations, minimizing wait times and maximizing seating capacity.
 - Integrated POS (Point of Sale) system for seamless billing and transaction

LEARNING EXPERIENCE

Brainery Spot Technology | Python Developer Intern | Coimbatore | March 2024 - August 2024

- Gained hands-on experience in Full Stack Development, working with frontend, backend, and database.
- Developed interactive web applications using HTML, CSS, JavaScript, and frameworks like React/Angular.
- Built and integrated RESTful APIs using Python (Django/Flask) or Node.js (Express.js) for seamless data exchange.
- Worked with databases (SQL & NoSQL), performing CRUD operations and optimizing queries for efficiency.
- Learned version control (Git, GitHub/GitLab) and collaborated on projects using Agile methodologies.

EDUCATION

Master of Computer Application (MCA)

- CSI Bishop Appasamy College of Arts and Science, Coimbatore | 2023 – 2025

Bachelor of Computer science (BSC. CS)

- CSI Bishop Appasamy College of Arts and Science, Coimbatore | 2020 -2023

CERTIFICATIONS

- Full Stack Python Developer
- SQL

LANGUAGES KNOWN

- ENGLISH
- TAMIL
