Objective

Aspiring IT professional with a passion for web development and problem-solving. Seeking an opportunity to contribute my technical skills and creativity to build innovative solutions in a dynamic IT environment

Education

- Sankara College of Science and Commerce
B.Sc (Information Technology)
80% 2022-Present
- Government Higher Secondary school
XII
79% 2021-2022

Skills

- HTML
- CSS
- JavaScript
- React JS

Projects

- **Event Calendar**
Developed a web-based Event Calendar for college departments to manage scheduling and prevent conflicts. It supports multiple users with Firebase authentication, enabling secure logins, event additions, and real-time conflict alerts. Events are stored in Firebase Firestore for reliable and scalable data management. The calendar includes week, month, and day grid views, built with HTML, CSS, JavaScript, for an interactive experience. Real-time updates and grid navigation enhance collaboration and planning efficiency.

- **Guess The Number**
A simple web-based game using HTML, CSS, and JavaScript , Developed an interactive guessing game where players have multiple attempts to guess a random number between 1 and 10. Used JavaScript for game logic, Bootstrap for styling, and CSS for custom design. Implemented user feedback to enhance gameplay, such as dynamic scoring and alert messages.
