SUMMARY

A passionate and quick learner with a solid foundation in programming and problem-solving. Eager to contribute to impactful projects by writing clean, efficient code. Adaptable, creative, and committed to continuous learning and growth. Looking to thrive in a collaborative, forward-thinking tech environment.

PROFESSIONAL EXPERIENCE

Project title: Exploring emotion detection using NLP by understanding human emotions through text.

- Developed a project focused on detecting human emotions (like happy, sad, angry) from text using Natural Language Processing (NLP) techniques. The project aimed to classify user input based on emotional tone using a machine learning model trained on labeled text data.
- The process involved text preprocessing steps such as tokenization, stopwords removal, and TF-IDF vectorization. A classification algorithm was used to train the model on emotional datasets and predict emotions for new text input.

EDUCATION

Graduated BSc Information Technology , 83% 2022-2025
Sankara college of science and commerce - Bharathiyar university.

Higher studies , 90% 2020-2022
Blue bird mat.hr.sec.school

CERTIFICATIONS

- Completed 15 days of Interpersonal skill development training by Infosys BPM
- Certified by skill up in fundamentals of database and python
- Hindi certified by "Dakshin Bharat"
- Got first place in poster presentation
- Participated in Hackathon

TECHNICAL SKILLS

- HTML
- CSS
- Javascript
- PYTHON
- SQL(BASICS)

LANGUAGES

TAMIL
ENGLISH
HINDI(Reading,Writing)

SOFT SKILL

- Fast learner
- Leadership
- Patience
- Flexibility
- Time management
- Team work
- Optimistic
- Good communication
