- Programming with JavaScript @Meta certification in Coursera.
- Fundamentals of Java Programming @Board Infinity certification on Coursera.

PROJECTS

Static Website Development for ZiCO Technologies

- A static web design has been created and made responsive for ZICO Technologies, a consulting and Development Company. The website includes service, portfolio, and contact pages with a highly professional and user-friendly graphical design.
- Leveraged Bootstrap and responsive design principles, ensuring device compatibility and achieving a 98% user satisfaction rate.
- Applied HTML5, CSS3, and JavaScript technologies guarantee a responsive mobile device design while maintaining the cross-platform approach.

Building a Student Management System

- Designed a Student Management System class to manage the collection of students with CRUD operations.
- Implemented a Student class with attributes such as name, roll number, grade, and additional details. Integrated a Storage system for reading/writing student data.
