PERCENTAGE: 69%

PROFESSIONAL EXPERIENCE

Web Application Development Internship 04/2024 – 05/2024
Prompt Info Tech Pvt Ltd.

SKILLS

- Programming Languages: Python
- Data Analyst

PROJECTS

CarGO - Car rental system

Developed a full-stack web application for a Car Rental System enabling users to browse, book, and manage vehicle rentals online. Implemented features like user authentication, vehicle listings, booking history, and admin control panel for efficient management.

VKmart - Furniture Mart

Designed and developed a web application for an Online Furniture Mart to facilitate product browsing, user registration, cart management, and secure checkout. Focused on responsive UI and smooth user experience with dynamic product listings and admin management features.

RejecText - Smart Rejection System

Developed a Java-based Android application called *Smart Rejection* using SQLite for data handling. The app automatically sends SMS rejections based on user-defined modes like Driving, Meeting, or Gaming, enhancing user convenience and safety by minimizing manual call handling.
