PROFILE SUMMARY

A passionate and enthusiastic BCA graduate with a strong understanding of computer applications and programming fundamentals. A quick learner with excellent analytical skills, strong communication abilities, and a keen interest in exploring new technologies. Ready to embark on a career in software development, IT consulting, or web development, with a commitment to continuous learning and growth.

TECHNICAL KNOWLEDGE

- PYTHON PROGRAMMING
- SQL
- MS EXCEL
- MS POWER BI
- TABLEAU

PROJECTS

OBJECT DETECTION SYSTEM

I have successfully created an application that detects object using a camera and identifies them by name, developed with Python and TensorFlow.

MOVIES RECOMMENDATION SYSTEM

This Analysis project is designed to explore and analyze data-driven approaches to recommending movies using Python.

The system aims to improve user satisfaction by offering personalized recommendations, enabling user to discover movies that align with their preference.

CERTIFICATIONS

- Completion of DATA ANALYTICS Job Simulation from TATA Group
- Completion of Basic Python from Great Learning
- Completion of AI and Green Skills from Naan Mudhalvan
