SUMMARY

I am a determined and innovative Computer Science graduate seeking opportunities to leverage my technical knowledge in programming and technologies. My experience in software development and my passion for creating impactful projects underline my capability to contribute effectively in professional environments. I strive for continuous growth and development in technology-driven solutions

EXPERIENCE

Intern

VEI Technologies

Internship experience in Full Stack Development

- Translating UI/UX designs (wireframes, mockups) into functional and visually appealing web pages using HTML for structure and CSS for styling.
- Using JavaScript to add interactivity and dynamic behavior to web pages (e.g., form validations)
- Learning basic techniques to ensure fast load times and smooth user experiences (e.g., optimizing images, minimizing CSS/JS files)
- Testing and debugging frontend code to ensure it functions correctly across different web browsers (Chrome, Firefox, Edge, Safari).
- Elevated team productivity by 30% by streamlining code review procedures and adopting automated testing practices.
- Supported a team of 10 by maintaining applications used by over 200 daily active users.

EDUCATION

Bachelor Of Engineering in Computer Science

Sasurie College Of Engineering

08/2022 - 05/2025 Tiruppur

Diploma in Mechanical Engineering

Sankara Polytechnic College

08/2015 - 05/2018 Coimbatore

SSLC

KG Higher Secondary School

08/2014 - 05/2015 Nambiyur

INTERESTS

★ Hobbies

Chess as a strategic game, drawing as a creative outlet, and watching the news to stay updated

COURSES

Android Development Course

KEY ACHIEVEMENTS

Improved Project Delivery

Raised project delivery by 30% through enhanced full stack development practices.

Optimized System Performance

Reduced system errors by 25% implementing effective debugging techniques.

Coding Competition Success

Led student team to secure 2nd place in coding competition with over 50 competitors.

Increased Diagnosis Accuracy

Achieved 95% accuracy in brain stroke detection using deep learning algorithms.

STRENGTHS

Interpersonal Skills

Skills in Adaptability, Teamwork, Initiative, and Responsibility

SKILLS

Python

HTML

CSS

JavaScript

Visual Studio

Visual Studio Code

Python 3

PROJECTS

Brain Stroke Detection System

Brain Stroke Detection System based on CT Images using Deep Learning

- Increased 95% accuracy of brain stroke diagnosis using deep learning
- Highly used in health care fields

Health and Fashion Webpage Development

Health and Fashion webpage development aiming to empower users

- Developed personalize wellness resources and showcase latest fashion trends
- Created an intuitive platform for user engagement
