OBJECTIVE

Detail-oriented and analytical recent graduate with a strong foundation in statistics, data visualization, and Python-based analysis. Seeking a data analyst role to apply my skills in data cleaning, interpretation, and reporting to support data-driven decision-making.

SKILLS AND INTERESTS

Programming Languages	Python
Database	SQL
Data Visualization Tools	Power BI, or matplotlib/seaborn in Python
Soft Skills	Critical thinking, Problem solving, Attention to Detail

EDUCATION

Nehru institute of Engineering and Technology	Dec 2021 - June 2025
Bachelors of Technology in Artificial Intelligence and Data Science	

EXPERIENCE

Data Science Internship Techvolt Software Pvt Ltd.	June - July 2023
--	------------------

- Analyzed and interpreted datasets to extract meaningful insights and trends, supporting data-driven decision-making processes during internship tenure.
- Developed and maintained detailed dashboards and reports to visualize key metrics, contributing to the understanding of operational performance and supporting process improvements.

Python for Data Science – NPTEL (National Programme on Technology Enhanced Learning)	July - August 2024
---	--------------------

- Successfully completed a detailed course focused on using Python for data science applications.
- Gained practical skills in data manipulation and analysis using libraries such as NumPy and Pandas, and learned to create visualizations with Matplotlib and Seaborn.

CERTIFICATIONS

• Data Science	Techvolt Software
• Data Analytics process Automation Virtual Internship	Alteryx sparked-AICTE
• Python for Data Science	Cognitive Class in IBM
• Python for Data Science	NPTEL

PROJECTS

Learning Engagement Analytics for EdTech Platform

Designed and implemented a data analytics solution to evaluate learner engagement on an EdTech platform. Collected, cleaned, and analyzed user interaction data to identify patterns in student behavior, course performance, and platform usage. Leveraged data visualization tools and statistical methods to generate actionable insights for improving learner retention and course effectiveness.

POSITIONS OF RESPONSIBILITY

Data Science Intern - Techvolt Software Pvt Ltd.

- Collaborated with a cross-functional team to collect, clean, and analyze real-world datasets for business insights and predictive modeling.
- Developed machine learning models (e.g., Linear Regression, Decision Trees) to improve business processes and forecast trends.
- Utilized tools like Python (Pandas, NumPy), Jupyter Notebook, and PowerBI for data visualization and analysis.

HOBBIES AND INTEREST

- Cycling
- Strength training
