Summary

Enthusiastic and detail-oriented computer science graduate with a strong foundation in **Python programming**, **SQL**, and **web development** using **HTML and CSS**. Experienced in designing and developing simple applications using Python and Flask, and integrating backend databases with SQL queries. Familiar with core **software development methodologies** including **SDLC** and **Agile**, and adept at writing clean, maintainable code. Proficient in using Git for version control and working in collaborative environments. Passionate about building efficient, user-friendly applications and continuously improving coding skills through hands-on learning and project work.

Technical Skills

Programming Languages: Python (Proficient) | SQL (Intermediate)

Web Technologies: HTML | CSS | Flask (Basic)

Database Management: MySQL | SQLite | Query Optimization | Joins | Subqueries

Software Development Concepts: Object-Oriented Programming (OOP) | SDLC | Agile Methodology | Debugging | Version Control (Git)

Development Tools & IDEs: GitHub | Visual Studio Code | PyCharm

Operating Systems: Windows | Linux (Basic) | Command Line Tools

Education

Mahendra Engineering College

Master of Computer Applications

Cum. GPA: 9.1

Aug. 2023 – June 2025

Namakkal, Tamil Nadu

Mahendra Arts and Science College

Bachelor of Computer Applications

Cum. GPA: 7.3

June 2020 – May 2023

Namakkal, Tamil Nadu

Certifications

- Python Programming – LiveWire [**Verify**]
- Cyber Thread Management – Cisco [**Verify**]
- Selenium Webdriver With Python – Udemy [**Verify**]
- Ethical Hacking Essentials – EC-Council [**Verify**]
- Networking Essentials – Cisco [**Verify**]
- Front End Development – Great Learning [**Verify**]

Relevant Coursework

Python Programming: Data types, Control structures, Functions, File handling, Modules, OOP in Python

Web Development: HTML, CSS, Responsive Design, Flask (Basics), Form Handling

Database Management: SQL Queries, Joins, Subqueries, Database Design, Data Retrieval and Manipulation

Software Engineering: SDLC, Agile Methodology, Software Testing Basics, Documentation

Version Control & Tools: Git, GitHub, Visual Studio Code, PyCharm

Projects

J.A.R.V.I.S AI Assistant | *Python, PyQt5, SQLite, Ollama (DeepSeek-Chat)* | [GitHub Link](#) **Jan 2025 – Mar 2025**

- Built a **Python-based AI assistant** with voice input and NLP, reducing task execution time by **40%** through automation.
- Integrated **LLM (DeepSeek-Chat)** via **Ollama**, enabling context-aware conversations with **90% response accuracy**.
- Managed over **1,000+ interactions** using **SQLite** to store, retrieve, and analyze chat history.
- Developed a GUI in **PyQt5** with real-time feedback and history viewer, improving usability by **30%**.

Secure Pass Vault | *Python, SQL, MySQL, Bcrypt, Tkinter* | [GitHub Link](#)

Jan 2024 – Mar 2024

- Developed a secure credential manager with **Bcrypt encryption**, enhancing data security by **85%** based on test cases.
- Utilized **MySQL** and complex SQL queries to manage and protect over **500+ user records**.
- Designed a user-friendly **Tkinter interface**, reducing manual input errors by **25%** and improving data entry efficiency.
- Created detailed documentation and guides, improving onboarding and user understanding by **40%**.
