SRV Hi-Tech Matric Higher Secondary School	SSLC (84.8)	[2018-19]

PROJECT

Cloud-Based Resume Management System:

[\[LINK\]](#)

Developed a web application that allows users to enter their details, which will be stored in an AWS S3. The entire project is hosted on an AWS EC2 instance. We can download our resume in ATS Format.

Technology Stack - AWS S3, AWS EC2, Python-Flask.

Automated Portfolio Deployment using GitHub Actions:

[\[LINK\]](#)

Implemented a CI/CD pipeline for my portfolio website using GitHub Actions and AWS. This automated the build and deployment process, ensuring immediate updates. This portfolio is hosted on the AWS S3 bucket through GitHub Actions.

Technology Stack – AWS S3, GitHub Actions.

AWS-Powered Application Management System:

[\[LINK\]](#)

Developed a web application that collects data from the applicants and stores it in AWS RDS while uploading resumes to an AWS S3 bucket. The backend is built using Flask, and the entire project is hosted on an AWS EC2 instance. The admin can view the database of every applicant easily.

Technology Stack – AWS RDS, AWS S3, AWS EC2, Python-Flask.
