PROFILE SUMMARY

Motivated and detail-oriented Junior Python Developer with strong skills in Python programming, data analysis, and machine learning. Experienced in building and deploying end-to-end applications using Pandas, Scikit-learn, and Streamlit. Comfortable writing clean, modular Python code for solving real-world problems.

SKILLS

- Python, Pandas, NumPy, Scikit-learn, Streamlit, Matplotlib, Seaborn, Machine Learning, Model Deployment, Data Cleaning, Data Visualization.
-

PROJECT

Customer Churn Prediction Individual Project

Tech Stack – Python, Pandas, Scikit-learn, Streamlit, NumPy, Matplotlib.

- Built a classification model using machine learning algorithms to predict if a customer will leave a telecom service.
 - Performed data cleaning, feature encoding, and scaling to improve model performance.
 - Deployed for real-time user-driven predictions via a user-friendly interface.
-

Grocery Store Web App Individual Project

Tech Stack – Python, Pandas, Streamlit, Bcrypt.

- Developed a role-based grocery store web app using Python, Streamlit, and Pandas.
 - Implemented secure login/signup with bcrypt, and managed user roles: Owner, Admin, and User.
 - Enabled inventory control, cart system, billing, and admin approval workflows with session tracking.
