

MADHUMITHA PARAMESWARAN

AI & Data Science Graduate

+91-9344673481 @ madhumithamithawaran@gmail.com Coimbatore, Tamil Nadu, India

SUMMARY

As a passionate AI & Data Science graduate with hands-on experience in machine learning, Python, and problem-solving. I thrive on leveraging my analytical skills and coding knowledge in challenging Software development roles

EXPERIENCES

Data Science Intern

Exposys Data Lab

06/2021 - 06/2021 Coimbatore, Tamil Nadu, India

Internship in Data Science with Python

- Performed analysis on data and made predictions for startup companies

Data Science Intern

Yuva Shathi Academy

07/2021 - 09/2021 Coimbatore, Tamil Nadu, India

Internship in Data Science with Python

- Demonstrated expertise in statistical modeling, machine learning, and data visualization
- Contributed innovative solutions to real-world projects

EDUCATION

B.Tech in Artificial Intelligence And Data Science

KGISL Institute of Technology

08/2021 - 05/2025 Coimbatore, Tamil Nadu, India

Higher Secondary Certificate

S'T John's Matric Higher Secondary School

06/2020 - 05/2021 Coimbatore, Tamil Nadu, India

Secondary School Certificate

S'T John's Matric Higher Secondary School

06/2018 - 05/2019 Coimbatore, Tamil Nadu, India

SKILLS

Python	SQL	Machine Learning	Deep learning
Excel dash board	Microsoft Power BI	Tableau	EDA
Data visualization	Data Cleaning	Statistics	
Data Analysis	Data mining	Predictive analysis	
SDLC	Power Point	SDLC	

STRENGTHS

Observation

Observation skills contributing to effective data analysis

Business Communication

Effective communication in business contexts

Problem-Solving and Decision Making

Critical problem-solving skill

Collaboration

Productive teamwork in diverse environments

PROJECTS

FACE AND AGE RECOGNITION

09/2021 - 10/2021

TOOL USED : Natural Language Processing, ML Libraries

- Developed a facial recognition system using OpenCV, PyTorch, and TensorFlow to address identity verification needs, ensuring accurate recognition and enhancing security measures

MUSIC RECOMMENDATION USING SENTIMENTAL ANALYSIS

11/2021 - 12/2021

TOOL USED : Natural Language Processing, ML Libraries

- Developed a sentiment-based music recommendation system in Python to curate personalized playlists, enhancing user engagement through data-driven insights and leveraging NLP techniques for sentiment analysis

SENTIMENTAL ANALYSIS IN SOCIAL MEDIA

01/2022 - 02/2022

TOOL USED : NLP Libraries, ML Algorithm (SVM, CNN , RNN)

- Conducted sentiment analysis on social media data to assess public sentiment towards brands and topics, utilizing Python and NLP techniques for insightful analysis
