CAREER OBJECTIVE

I am an enthusiastic and detail-oriented engineering graduate eager to apply my technical skills in real-world projects. With a solid grasp of programming, software development, and agile methodologies, I strive to contribute effectively to team success. My goal is to continuously learn, adapt, and grow into a well-rounded software professional

TECHNICAL SKILLS

Programming Languages: Python, Javascript, Java, C++, SQL,

Frontend Technologies: HTML, CSS, Figma

Version Control : Git, Github

IDEs and Tools I Use : VS Code, PyCharm, Jupyter Notebook, Sublime Text, CodePen

PROJECTS

Sustainable Waste Management System For Smart Cities

Jan 2025 – Present

Waste Management

embedded C,

- Designed and developed an IoT-enabled intelligent waste management system to optimize garbage collection in urban environments. Implemented smart sensors in bins to monitor real-time fill levels, temperature, and gas emissions, transmitting data via LoRa/Zigbee/Wi-Fi/GSM to a cloud platform.
- Utilized AI and machine learning for predictive analytics, route optimization, and real-time decision-making. Integrated GPS-based fleet tracking to reduce fuel consumption and carbon emissions, significantly enhancing efficiency, reducing environmental impact, and promoting sustainability in smart cities.

E-commerce Web Application

Aug 2024

Amazon Clone

HTML, CSS, JavaScript, MySQL

- Developed a responsive Amazon-inspired e-commerce website using HTML, CSS, and JavaScript for dynamic features like cart updates and product filtering. Used MySQL to manage user accounts, products, and orders, enhancing both front-end and back-end skills.
- The project emphasized creating a seamless user experience and understanding the workflow of an online shopping platform from both user and developer perspectives.
- Implemented core functionalities including user authentication, product search, add-to-cart, order placement, and a basic admin panel for product management.

INTERNSHIP

Adventure Tech Solutions

Oct 2024 – Nov 2024

Java-Fullstack

Coimbatore

- Gained hands-on experience in developing and deploying full-stack applications, improving project efficiency by 20% through streamlined workflows and Strengthened Java fundamentals.

EDUCATION

Nehru Institute Of Engineering And Technology

Coimbatore

B.E. in Computer Science And Engineering

Nov 2021 – May 2025

CERTIFICATIONS

- AWS Certified Robotics
- Certificate in Data Analyst
