PROFILE SUMMARY

Motivated and detail-oriented **Computer Science Engineering graduate** with hands-on experience in **Web Development (HTML, CSS, JavaScript)** and **Mobile App Development (Android Studio)**. Strong in **Python, Java, and C programming**, with problem-solving and debugging skills. Eager to contribute technical knowledge to software development projects and learn emerging technologies.

TECHNICAL SKILLS

- **Languages:** Java, C, Python
- **Web Development:** HTML, CSS, JavaScript
- **Mobile App Development:** Android Studio, UI/UX Design, Debugging, App Deployment
- **Database:** MySQL
- **Tools & Platforms:** VS Code, GitHub

EDUCATIONAL QUALIFICATION

- **B.E. Computer Science and Engineering** — Idhaya Engineering College for Women, Anna University — **CGPA: 8.56**
- **HSC (12th)** — Eklavya Model Residents Hr. Sec. School, Abinavam — State Board
- **SSLC (10th)** — Eklavya Model Residents School, Abinavam — State Board

INTERNSHIP / IN-PLANT TRAINING

- **Web Development (HTML & CSS)** Code Bine Technology, Trichy
Internship — 1 Week
 - Developed responsive webpages using HTML and CSS. Learned about front-end layouts, semantic tags, and code optimization for better usability and accessibility.
- **Mobile App Development** Litz Tech, Coimbatore
Internship — 1 Week
 - Built and tested Android applications using Android Studio with focus on UI/UX, debugging, and activity life cycle. Gained experience in app design and real-world deployment.

PROJECTS

- **Smart Irrigation Monitoring System:** Designed and implemented an IoT-based system that automatically monitors soil moisture levels and controls water flow using embedded sensors and microcontrollers. The system ensures efficient irrigation by optimizing water usage and maintaining soil conditions for crops. Integrated real-time data logging and GSM modules for remote control and monitoring. **Technologies Used:** IoT, Arduino, Sensors, Embedded C, Data Logging, GSM Module.
- **AI Chatbot for Daily Healthy Life Activities:** Developed an intelligent chatbot using Python and Natural Language Processing (NLP) that provides health tips, daily wellness reminders, and motivational messages. The chatbot communicates interactively, helping users maintain fitness and well-being routines. Implemented AI-based logic for analyzing user input and delivering relevant, personalized advice. **Technologies Used:** Python, NLP, Machine Learning, Chatbot Frameworks.

CERTIFICATIONS

- Java Programming & AI/Machine Learning — Optimus Company, Salem
- Web Development (HTML & CSS) — Code Bine Technology, Trichy

SOFT SKILLS

Communication — Problem Solving — Teamwork — Adaptability — Time Management — Quick Learner
